

# Select Desk Theme 1.58

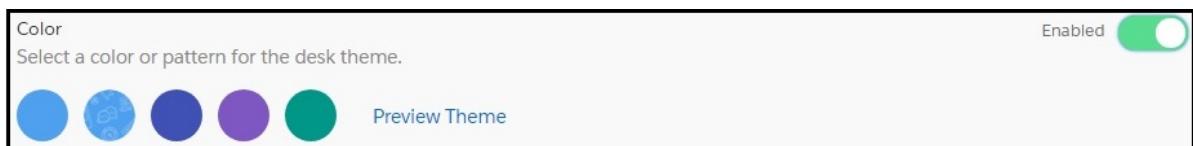

1. Log in to Salesforce and access SMS-Magic Converse.
2. Click the **Converse Settings** tab.

3. Click **Conversations** section on the left.
4. Click **Converse Desk Layouts** tab.

A screenshot of the 'Converse Desk Layouts' settings page. The top navigation bar has tabs for 'Converse Desk Layouts' (which is selected and highlighted in blue), 'Message Settings', and 'General Settings'. Below this, there's a section titled 'Configure Converse Desk Layout' with a sub-instruction 'Setup the layout of the Converse Desk for users and user profiles in the organization.' A 'Create New Layout' button is visible. The main configuration area shows three service categories: 'Service' (All, Closed Conversations, Follow Ups, Open Conversations...), 'Default' (All, Follow Ups, Unread), and 'Sales' (All, Custom Filter, Follow Ups, Unread). Underneath, there's a 'Color' section where users can select a color or pattern for the desk theme, with a 'Disabled' toggle switch. Further down is a 'Conversation Topic' section for customizing how conversations are viewed, with dropdowns for 'Object' (Account, Contact, Lead), 'Template Name(Optional)', 'Field Name', and examples like '(Eg: Welcome Message | Not Contacted)'. At the bottom, there's a 'Preview Theme' button.

5. Under the **Color** section, slide the toggle button to enable the feature.

6. Select a color or pattern for the desk theme.
7. Click **Preview Theme**. A separate pop-up window displays a preview of the Converse Desktop.
8. Click **Save Changes** at the bottom of the Converse Desk Layouts tab page.
