

SMS/MMS

The mobile app allows you to send SMS and MMS messages from the inbox. Simply select a conversation from the inbox, use a message template or send a manual message to the recipient. SMS-Magic Converse app simplifies messaging and conversing with your clients. With the mobile app, it is possible to send an SMS to an unknown number as well. You can compose and send messages to someone who is not a part of your contact list.

You can send MMS messages by attaching photos, videos, or files from your mobile device or by clicking pictures. All this gives your customers a personal touch.
